

CORPORATE PROFILE OF BDTECH

Trusted IT Support & Audit Partner

About BDTECH

BDTECH is a professional Information Technology service provider specializing in IT Support and Information Systems (IS) Audit. Since our founding in 2024, we are committed to delivering reliable and secure IT solutions to ensure smooth business operations, focusing on infrastructure management, network support and system maintenance while maintaining strong governance and risk management frameworks. Through proactive monitoring and efficient service delivery, BDTECH helps organizations minimize downtime and maintain operational continuity.

In addition to support services, BDTECH offers comprehensive IS audit and assurance services aligned with international standards and regulatory guidelines. Its expertise includes IT General Controls (ITGC), cybersecurity assessments, compliance reviews, and data center and disaster recovery audits. By combining technical support with strong audit capabilities, BDTECH enables organizations to strengthen internal controls, manage risks effectively and achieve regulatory compliance.

BDTECH is driven by a team of skilled professionals with extensive experience in IT operations, audit, and cybersecurity. The company adopts a structured and methodical approach to service delivery, ensuring transparency, accuracy, and value addition in every engagement. Through its integrated approach combining technical support and audit expertise, BDTECH positions itself as a trusted partner for organizations seeking to enhance their IT environment, ensure compliance, and mitigate operational and security risks.
